# ICJCE

The Instituto de Censores Jurados de Cuentas de España is a public interest private institution representative of the audit professionals and firms operating in Spain, as well as of other professionals in sustainability corporate reporting.

## Objectives of the ICJCE

Its objectives include:

- The promotion and dissemination of the relevance of the role of auditors on sustainable development and on transparency improvement.
- Keeping the high professional quality of its members.
- Fulfilling the ethical standards inherent to the profession including integrity, independence, and professional competence.
- Offering a wide range of high technical services to its members.
- Protecting the common interests.
- The highest representativeness of the Institute in all public regulatory bodies to collaborate in the development of the legislation and functioning of the activity in Spain and internationally.

## Services offered by the ICJCE

Advice

- Technical: Technical Guides, Circulars and Consultations (more than 4.200 every year about audit, accounting, quality, etc).
- Legal: Consultations about audit, commercial law, corporate law, registry, labor and administrative law.

Education

- The ICJCE has a wide offer of CPD programs with more than 3100 hours of training in audit, accounting, bankruptcy, tax, legal and other issues per year.
- Master in Audit: 4 of them co-organised with Spanish Universities and 6 in collaboration.
- Access education courses to prepare the access examination to the Official Registry of Auditors.

## International representation

The ICJCE is the only Spanish representative to the most representative international organisations.

- Member of the International Federation of Accountants, IFAC.
- Member of Accountancy Europe.
- With dialogue with the European Commission, European Parliament and professional institutes of other countries.

## Sustainability

Sustainability assurance is already one of the most significant services provided by audit firms. The ICJCE offers the best master program on this subject and provides technical support to its members on this type of work.

## REC] Registry of Accounting Experts

The objective of the REC] is to boost the role of the accounting experts and to promote their recognition in our country.
